Subject: I oppose Duke's latest rate hike for dirty energy

Apr 20, 2013

South Carolina Public Service Commission

Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by clean, local wind & solar that will employ thousands of Carolinians.

Sincerely,

Jennifer Griffith 315 Obie Dr Durham, NC 27713-8811 (770) 853-6653

Subject: I oppose Duke's latest rate hike for dirty energy

Apr 20, 2013

South Carolina Public Service Commission

Dear Public Service Commission,

I would like to see Duke Energy take the high road and begin to really contribute to the health of our planet, which is in severe jeopardy.

Duke could be a major player in converting to sustainable energy sources rather than continuing to contribute to the degradation of our skies and seas.

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Judy Martell 4424 Erwin Rd Durham, NC 27705-5214 (919) 493-4696
